

Matli Vishnu Vardhan Naidu

Contact: +918106895785 | **Email:** matlikinnu@gmail.com | **Location:** Kadapa

Objective:

Dynamic Network Engineer with a strong background in web development, skilled in JavaScript and passionate about enhancing digital experiences. Seeking opportunities to contribute technical expertise to innovative projects and advance in the field of technology.

Education:

Diploma in Computers

Priyadarshini Institute of Technology and Science, Chintalapudi

Graduation Date: 06, 2024

Work Experience:

Independent Web Developer

Duration: 2

- Designed and developed interactive web applications using JavaScript.
- Created user-friendly interfaces and optimized user experiences.
- Implemented networking concepts to ensure smooth data flow and efficient communication.
- Conducted penetration testing and applied security measures to safeguard against vulnerabilities.
- Demonstrated proficiency in SQL injection prevention for database security.
- Utilized hardware knowledge for troubleshooting and maintaining systems.

Projects:

Data Server Online Website

- Developed a data server online website project from concept to execution.
- Implemented UI/UX design principles for an intuitive user interface.
- Leveraged networking skills to ensure seamless data storage and retrieval.
- Incorporated security measures to protect sensitive data.

Achievements:

- Awarded 1st prize in an exhibition at Kalam Research Centre for demonstrating excellence in crop protection project

Technical Skills:

- Networking: Proficient in configuring and troubleshooting network systems.
- Penetration Testing: Skilled in identifying vulnerabilities and ensuring network security.
- SQL Injection: Knowledgeable in database security and protection against SQL injection attacks.
- Computer Hardware: Competent in diagnosing and resolving hardware issues.
